Subject: Fwd: New Direct Connection to the Southern Outfall Sewer at Rye Meads - Without Prejudice

Dear Mrs SJH.

Reference email below.

Unfortunately there has been a misinterpretation of the facts from the August 4th 2017 meeting at WHBC between their planning dept., TWU and myself (as I was present) and I have to ask at this late stage in the public inspection of the WHBC Local Plan that the New 2017 IDP by WHBC is dismissed as evidence from this year's Local Plan submission and also the New 2017 Position Statement by TWU is dismissed as evidence from this year's Local Plan Submission.

I also urge based of this misinterpretation that Panshanger Aerodrome is excluded from the WHBC Local Plan of which I will bring my reasons why when my opportunity arises to speak to the Gov't Inspector.

I am looking forward to seeing my part end in this community campaign which has been since late 2012 and I am disappointed to find at such a late stage in this Local Plan this bold misinterpretation of the facts.

WHBC and TWU are only updating their documents based on the meeting I took part in on August 4th 2017; the misinterpretation lies solely with WHBC as the notes were supplied to both Mr Kastleman (TWU) and IMyself.

If I may also be so bold, if I am afforded the opportunity to speak last may I speak from my reports and timeline at the end of the questions, as I note I have already given some pretty clear objections.

Yours Sincerely

DM
Local Resident
