Planning Applications	
6/2026/0168/TPO	
Address	White Eaves High Road Essendon Hatfield AL9 6HU
Proposal	T1 – Maple – Remove and replant - The tree has a large open cavity at the base that travels about 15ft up the main trunk with all the rotten heart wood on show. T2 – Sycamore – pollard crown down and round in height by 4m, leaving roughly 1m stubs at the top of the tree and leaving lateral limbs at roughly 5m long. Reason for works is there is a large cavity in the main trunk where the top crown starts to shoot out. If left it will most certainly lead to crown failure in the future. T3 – Sycamore – remove Ivy from tree and prune round crown, full crown reduction back to growth points taking off 1m in height and width. T4 – Sycamore - full crown reduction back to growth points taking off 1.5m in height and width. Tree to be Crown lifted with branches wanting to be removed mark with red lines in photo attached. T5 – Yew tree – reduce main leader that comes out the top of the tree by 1.5m and prune remaining canopy in by 1m back to grown points

Address 24 Elmwood Welwyn Garden City AL8 6LE

Proposal The 8.5-meter-tall but very wide Goat Willow (Salix Caprea) growing within the neighbours' garden at number 24 Elmwood to undergo a crown reduction back to its previous cut points which is around 5-meters. The neighbour at no.26 has requested this application. We have spoken to the owner at number 24 who is happy with the proposal.
