6/2022/0717/TC

Address 168 Parkway Welwyn Garden City Hertfordshire AL8 6HZ

Proposal Removal of poplar tree (650mm girth; 14m high) including killing of tree stump) as marked T1 on the sketch plan

Reason for removal

There is a significant amount of leaf fall during Autumn and coupled with the proximity to my house, the gutters to my main house become clogged with leaves. Clearing requires engaging a specialist to remove the debris that involves significant cost every year.

The roots are such that they are close to my house and have caused uplift of my patio tiles and requires regular maintenance work.

The tree creates significant overshadowing of my garden and limits the variety of plants that can be grown. The roots also suck out so much moisture from the ground making it hard for plants to survive.

Proposed Tree Replacement

I propose to plant a replacement native tree that will mitigate the reasons stated above. I propose a Silver Birch
