Project and Equipment Fund Application Form – Information Guide

1.0 About Your Organisation

i 1.1 Organisation Details

[Back to Application Form](#) <

Enter the name, registered address and postcode of the organisation/club applying for funding.

i 1.2 Project/Equipment Details

[Back to Application Form](#) <

Any dates entered here need only be indicative – the Board will not hold the organisation or club to these dates.

i 1.3 Contact Details

[Back to Application Form](#) <

Enter the details of the individual who is the main contact for this application and be responsible for the delivery of the project if the application is successful. This person must be either an elected member or paid employee of the organisation/club applying for the funding.

i 1.4 Bank Details

[Back to Application Form](#) <

Enter the bank details where the fund should be paid in to, if this application is successful.

i 1.5 Nature of Organisation (Club Mark)

[Back to Application Form](#) <

Enter the date your organisation achieved club mark status and your club mark registration number or equivalent.

2.0 Project Details

i What are you planning on doing?

[Back to Application Form](#) <

This is your opportunity to explain to the Board what exactly you are going to do with the funding if you are successful. Make sure you have read and understood the Fund's strategic goals and that you use examples of how your project will directly support one or more of these. Make sure that you are concise in this area of your application.

i What do you hope to achieve?

[Back to Application Form](#) <

Here the Board wants to hear about how your project will provide new sporting opportunities and what impact that will have on the community of Hatfield.

Make sure that you answer this question fully by explaining what your project hopes achieve and why the project is necessary. A 'strong application' will be very clear about what achievement looks like and the difference that that funding will make to the number of people playing sport in Hatfield.

Any research that supports the need for your project and sets the wider context should be used here. (e.g. local authority, social, health and sports participation statistics). It should provide:

- Evidence of demand from participants for your project to happen. This can include surveys, waiting lists, letters of support or any other evidence you can provide that shows your application is driven by local demand.
- Evidence of support for your project from your national governing body (NGB) and/or county sports partnership (CSP), i.e. anything that indicates your project will contribute to the wider picture in your sport and local area.

Full details of evidence can be provided in a supporting document(s) and submitted along with your application form. It is important to make reference to the separate evidence in your answer if you chose to do this.

i Who is the project aimed at helping?

[Back to Application Form](#) <

Before answering this question, make sure you read and understand the Fund's 'Strategic Goals', which highlights the groups the Fund particularly wants to see more engaged in sport, leisure and physical activity.

In your answer, highlight how you are going to engage and work with these groups or individuals and typically cover:

- What benefit your project will have on the community?
- What impact it will have on the immediate community, is the community supportive?
- Are there any possible negative impacts on the community with regards to this project? If so, what are they and how will they be overcome?

3.0 About Your Equipment

i Why do you need it?

[Back to Application Form](#) <

Detail here the impact that the equipment will have on the club. For example, it will help attract new participants, increase the number of coaches, provide an overall better experience for those participating or the current equipment is not fit for purpose.

i Where are you sourcing it from?

[Back to Application Form](#) <

Here you need to highlight the research you have done in order to get best value for money. For example, why choose one specific company, have you obtained three quotes for the same products?

i How will the equipment be looked after and how will you ensure that it is replaced after its useful life.

[Back to Application Form](#) <

Here the Board wants to see what considerations have been made by your organisation to keep on top of the running costs for the equipment, if there are any.

The Board also wants to see what will happen in the future when running repairs are necessary, and later on when the equipment needs to be either replaced or significantly refurbished. Make reference here to the organisation's long term plan, for example has the organisation built in a 'Sink Fund' within the budget to help with future equipment repair and/or replacement?

4.0 About your Membership and Activity Programme

i 4.1 Sessions/Participants

[Back to Application Form](#) 

This is your chance to show exactly how the project can increase participation locally. The Board is looking to see what activity users currently have and what impact this project could have on future participation. It is important to consider and included the combined impact you and your partners will make when completing this section.

NOTE: Figures will be audited by the Board post project and your organisation will be required to provide evidence that the figures you submit here have been reached. It is important, therefore, that your figures are challenging but also realistic; this grid should form part of your organisation's delivery and development plan.

i 4.2 Coaches/Instructors

[Back to Application Form](#) 

Here the Board is looking to see what impact the project will have on the level/number of coaches/instructors/officials and volunteers. Again, it is important your partners' impact is taken into consideration when completing this section.

NOTE: As in 3.1, figures will be audited by the Board post project and your organisation will be required to provide evidence that the figures you submit here have been reached. As in your previous response, ensure that your figures are challenging yet realistic and use this grid to form part of your organisation's delivery and development plan.

5.0 Project Financial Details

i 5.2 Project Costs

[Back to Application Form](#) <

These costs should be headline figures only. More detailed figures should be broken down in the main project budget plan, which should accompany this application.

i 5.3 Equipment Costs

[Back to Application Form](#) <

These costs should be headline figures only. More detailed figures should be broken down in the main project budget plan, which should accompany this application.

i 5.4 Proposed Contributions

[Back to Application Form](#) <

Evidence of financial support must be in the form of a written letter from specific individuals or organisations. '*Grants from other sources*' only to be included if the application has already been successful and you are guaranteed to be awarded a grant.

i 5.5 Grant Requested

[Back to Application Form](#) <

To calculate your project costs, add the Project Costs (5.2) to the Equipment Costs (5.3); this will give you your Total Cost.

Use this figure (Total Costs) to then deduct the Total Contribution (5.4) and enter the figure; this should equal the amount you are requesting from the Fund.

7.0 References

References

[Back to Application Form](#) 

Your referees should be two individuals who know and support your organisation or club but are not directly involved in it, i.e. they cannot be members.

Whoever you put forward should be aware that you are applying for funding.

8.0 Applicant's Declaration

Applicant's Declaration

[Back to Application Form](#) 

All completed applications need to be emailed (or printed off and posted). You will only be required to sign and date the 'Declaration' section once the Board has confirmed your funding application has been successful.

Primary Contact

[Back to Application Form](#) 

This should be the same as the contact on the front page.

Authorised Signatory

[Back to Application Form](#)
