In response to request for comments on Polling Stations.

I live in Haldens area.

Rather than increase the number polling stations it is my view that in this area 2 polling stations could be combined and just increase the number of people staffing the station.

Currently Christ the King Church Hall and Holy Family Primary school are used.

The church hall is more central being opposite the the local shopping parade and this would avoid school bring closed.

There is also parking available at the shops.

Thank you.
